

Welcome to our 2018 Spring Newsletter!

What a year it has been! We are so excited to share with you what has been achieved over the past year.

Thanks to our donors and supporters, CURE has been able to heal many thousands of children with disabilities in some of the poorest places on earth. As we celebrate the impact that we have made, evidenced by the lives that have been changed, successful milestones and patient stories coming out of our hospitals and medical programmes each day we realise that...

We simply could not have done any of this work without the support of our donors and funders.

If you are a CURE supporter, we thank you for standing with us in healing the sick and demonstrating God's unconditional love to some of the most vulnerable people in developing countries.

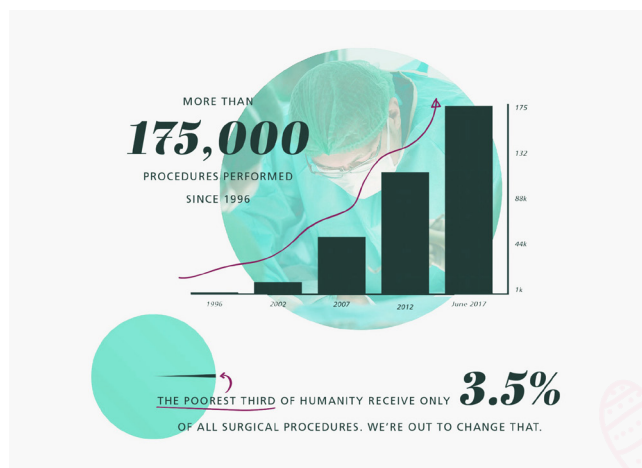

We are looking forward to continuing our partnership with faithful donors as we carry out CURE's life-changing work.

The CURE teaching hospitals bring specialised medical care to children with disabilities in low-and middle-income countries. Here we are training the next generation of doctors, nurses, anaesthetists and other medical staff.

We are delighted to report back to you on what you helped us to achieve in 2017:

FINANCIAL YEAR 2017 IMPACT

- ▶ **259,423** children visited CURE's outpatient clinics.
- ▶ **16,655** life-changing procedures performed so children can live free from disabilities.
- ▶ **236** mobile clinics were carried out to bring hope and healing to isolated patients.
- ▶ **585** volunteers mobilised across our CURE hospitals.
- ▶ **17,835** children newly enrolled in clubfoot treatment.

How would you like to reduce your Income Tax whilst changing a life?

By donating shares to CURE, you are eligible for Income Tax relief on the value of the shares as well as exemption from Capital Gains Tax.

Everybody wins as you can change the lives of children through an operation.

It's very easy to do and CURE can facilitate an introduction to Rathbone's Charities Team, who can arrange a shares transfer for you.

Please give us a call and we can ensure that you stand to benefit during this tax year, ending on 5th April 2018.

Meet Aretta

Beautiful Aretta was born fighting. When she was little, she did not let her clubfeet stop her from walking, even though she was constantly in pain. Her feet were so overextended that she was forced to walk on the tops of her feet.

In her village Aretta was constantly mocked for her disability as people shouted at her: "Aretta the cripple!"

One day, Aretta's mother heard about the CURE hospital. She was told that Aretta could be healed but would need multiple operations on her feet. This was followed by a series of casts and a long period of painful physical therapy.

Now at the age of six, Aretta is learning to walk on straight feet for the first time. She is going to school and she cannot stop smiling!

A monthly donation is by far the best way to help us plan ahead.

Did you know that it costs as little as **£300 to provide treatment for a child** suffering with clubfoot, so they may walk on straight feet? Just **£800 helps to pay for a life-changing operation**, so that a child can go to school and lead an independent life.

LET'S KEEP IN CONTACT!

In May 2018, the General Data Protection Regulation (GDPR) is coming into effect across the European Union. This means we will only be able to contact you if you have opted in to receive our communications.

If you opt in, we'll only use your personal details to send you important CURE information, including: Newsletters, CURE stories and fundraising opportunities.

At CURE we are committed to protecting your personal information and Privacy, for more information please see our Privacy Policy on our website.

Please make sure you have updated your contact preferences by emails us at uk.info@cure.org or complete one of our Contact preference forms, so that together, we may continue to bring hope and healing to the children that we serve.

Leave a lasting legacy

Leaving a gift in your Will is an opportunity to have an impact on the world after you have gone.

It invests in the lives of children who would otherwise be unable to walk or go to school.

Your legacy will pay a dividend to a child and their family for generations to come.
